Summary

Computer Science graduate from the University of Melbourne with 2 years of full-stack development experience, including hands-on work in Linux, React, Next.js, database-backed systems and web application deployment. Demonstrates a strong ability to learn and apply new technologies in agile development environments. Got a huge enthusiasm in automation and cloud computing, currently expanding skills in Terraform, AWS, K8s, Docker and CI/CD pipelines.

SKILL

Programming Language: Python, C++, C#, JavaScript, TypeScript
Frontend & Backend: React, Next.js, FastAPI, RESTful APIs
Database: MongoDB, SQL, NoSQL
Cloud & tool: Git, Linux, Bash, SSH, AWS Amplify, AWS Cognito

WORK EXPERIENCE

Big W, Melbourne

Store Team Member(Casual)

Sep 2024 – present

Key responsibilities: Customer Service|Team communication|Problem solving| POS System operation

CERTIFICATION

AWS Certified Cloud Practitioner 16.03.2026

AWS Certified Solutions Architect - Associate 23.04.2026

PROJECT

GoPlanner | Web Application | Python, React, Next.js, MongoDB, FastAPI, AWS Amplify

GitHub

- A web-based tool that helps users to customize their itinerary by providing smart planning dashboard, attraction browsing site, map and itinerary timetable.
- Stored attraction and user data in MongoDB and designed RESTful APIs with FastAPI to enable efficient communication between frontend and backend services
- Integrated Google Maps API and Camara API (provided by Telstra) to retrieve real-time population density.
- Using Amazon Cognito to set up web secure authentication.

HTTP Proxy Server | Systems Networking| Linux, C, HTTP protocol

GitHub

- Developed an HTTP proxy server in a Linux based virtual machine, using C socket programming and handling Level 4 TCP client-server communication.
- Implemented FIFO by caching strategies to improve the performance.
- Tested and debugged the system through Bash command-line and SSH remote access.

EDUCATION

University of Melbourne, Australia

Feb 2023 – Dec 2025

Bachelor of Computer Science

University College London, United Kingdom

Jun 2025 – Aug 2025

Machine learning Course
